

## Before

dirty room  
a bad smell  
no mattresses  
not enough beds  
horrible food  
didn't get washed

Many died of infections  
dirty sheets

## The Lady With The Lamp

Florence Nightingale

## After

no rats  
the smell gone  
clean clothes  
Men got washed  
less infection  
enough beds  
nice smell  
Special food

# At the British Hospital in Scutari...

I can see...

rats

wounded soldiers

blood

dirty bandages

dirty sheets

I can smell...

poo

toilets

rats

wee

I can hear...

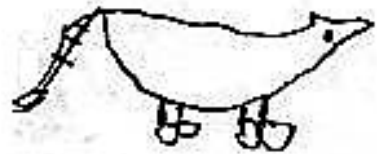

coughing

moaning

mice and rats

Squeaking

Whizzing

I can taste...

Soup

water

horrible Food

British hospital  
Scutari  
Turkey

19th November 1855

Dear prime minister  
my name is Florence Nightingale. I am writing to  
you because the hospital smells horrible and no one cleans the  
hospital and it's so disgusting. I hope you will  
help me because people are getting bad infections and they have  
to go to the toilet in a pot and they never clean them  
and I've got 38 nurses and the doctor won't let us  
in when I care for them if the doctor won't let us  
this is what we will do for them if the doctor won't let us  
give them new clothes - scrub the cat and the rats  
I'll do everything for them I even give them  
nice food and I won't shout at them  
because they're very ill and really terrible  
hurt and they'll never ever go to  
a war ever again. Never ever go to  
your obliged and very humble servant

Florence Nightingale
