Henry ordered a commission to look into the life of monks and nuns. This quote was taken from their findings and was one of the reasons Henry gave for closing down the 'little' abbeys.

Can you re-write the reason in modern English - what is it that Henry's commissioners said was happening in these abbeys?

'Manifest sin, vicious, carnal and abominable living is daily used and committed amongst the little and small abbeys.' And that the riches of the abbeys were to be *'used and converted to better uses.'*

Act of Suppression 1536

It's clear that you have done wrong, you should not be having a sexual life and it seems you are very unpleasant. Your life should be committed to your job. All riches from little and big Abbys will be converted to better use, eg for the poor (not really)

10/10

Because our group all worked together and there wasn't any arguments or hitchhikers.
